Solar price list: internal template preview

INTERNAL TEMPLATE. No current market prices are supplied. Confirm supplier cost, tax and approval before quoting.

Field	What the team records
Item identity	Exact model or defined work package
Unit	Module, watt, metre, lot or service
Direct cost	Dated supplier cost + freight + other direct cost
Target margin	Approved gross margin, not markup
Selling price	Direct cost / (1 - margin), before tax
Governance	Supplier source, dates, status and approver

No current module, inverter, cable or service price is shown. Enter approved real inputs in the Excel workbook.
